

Is the Prison Service working for you?

We are offering a programme that provides people in prison who want to change their lives, with meaningful work that allows them to contribute towards Victim Support and their own rehabilitation.

Carefully selected the people undertake training to NVQ level in contact centre operations that provides both skills to work effectively for organisations such as yours whilst in prison and a job upon leaving.

The opportunity for your organisation is a higher corporate responsibility profile by engaging in a high profile initiative supported by the Ministry of Justice, lower costs and overheads for trained contact centre agents, flexible resources that can deal with overflow calls and specific projects, all dedicated to growing and supporting your business.

VoisData

“Trained people with British Regional accents as an effective alternative to off shoring operations”
